

José Saldaña

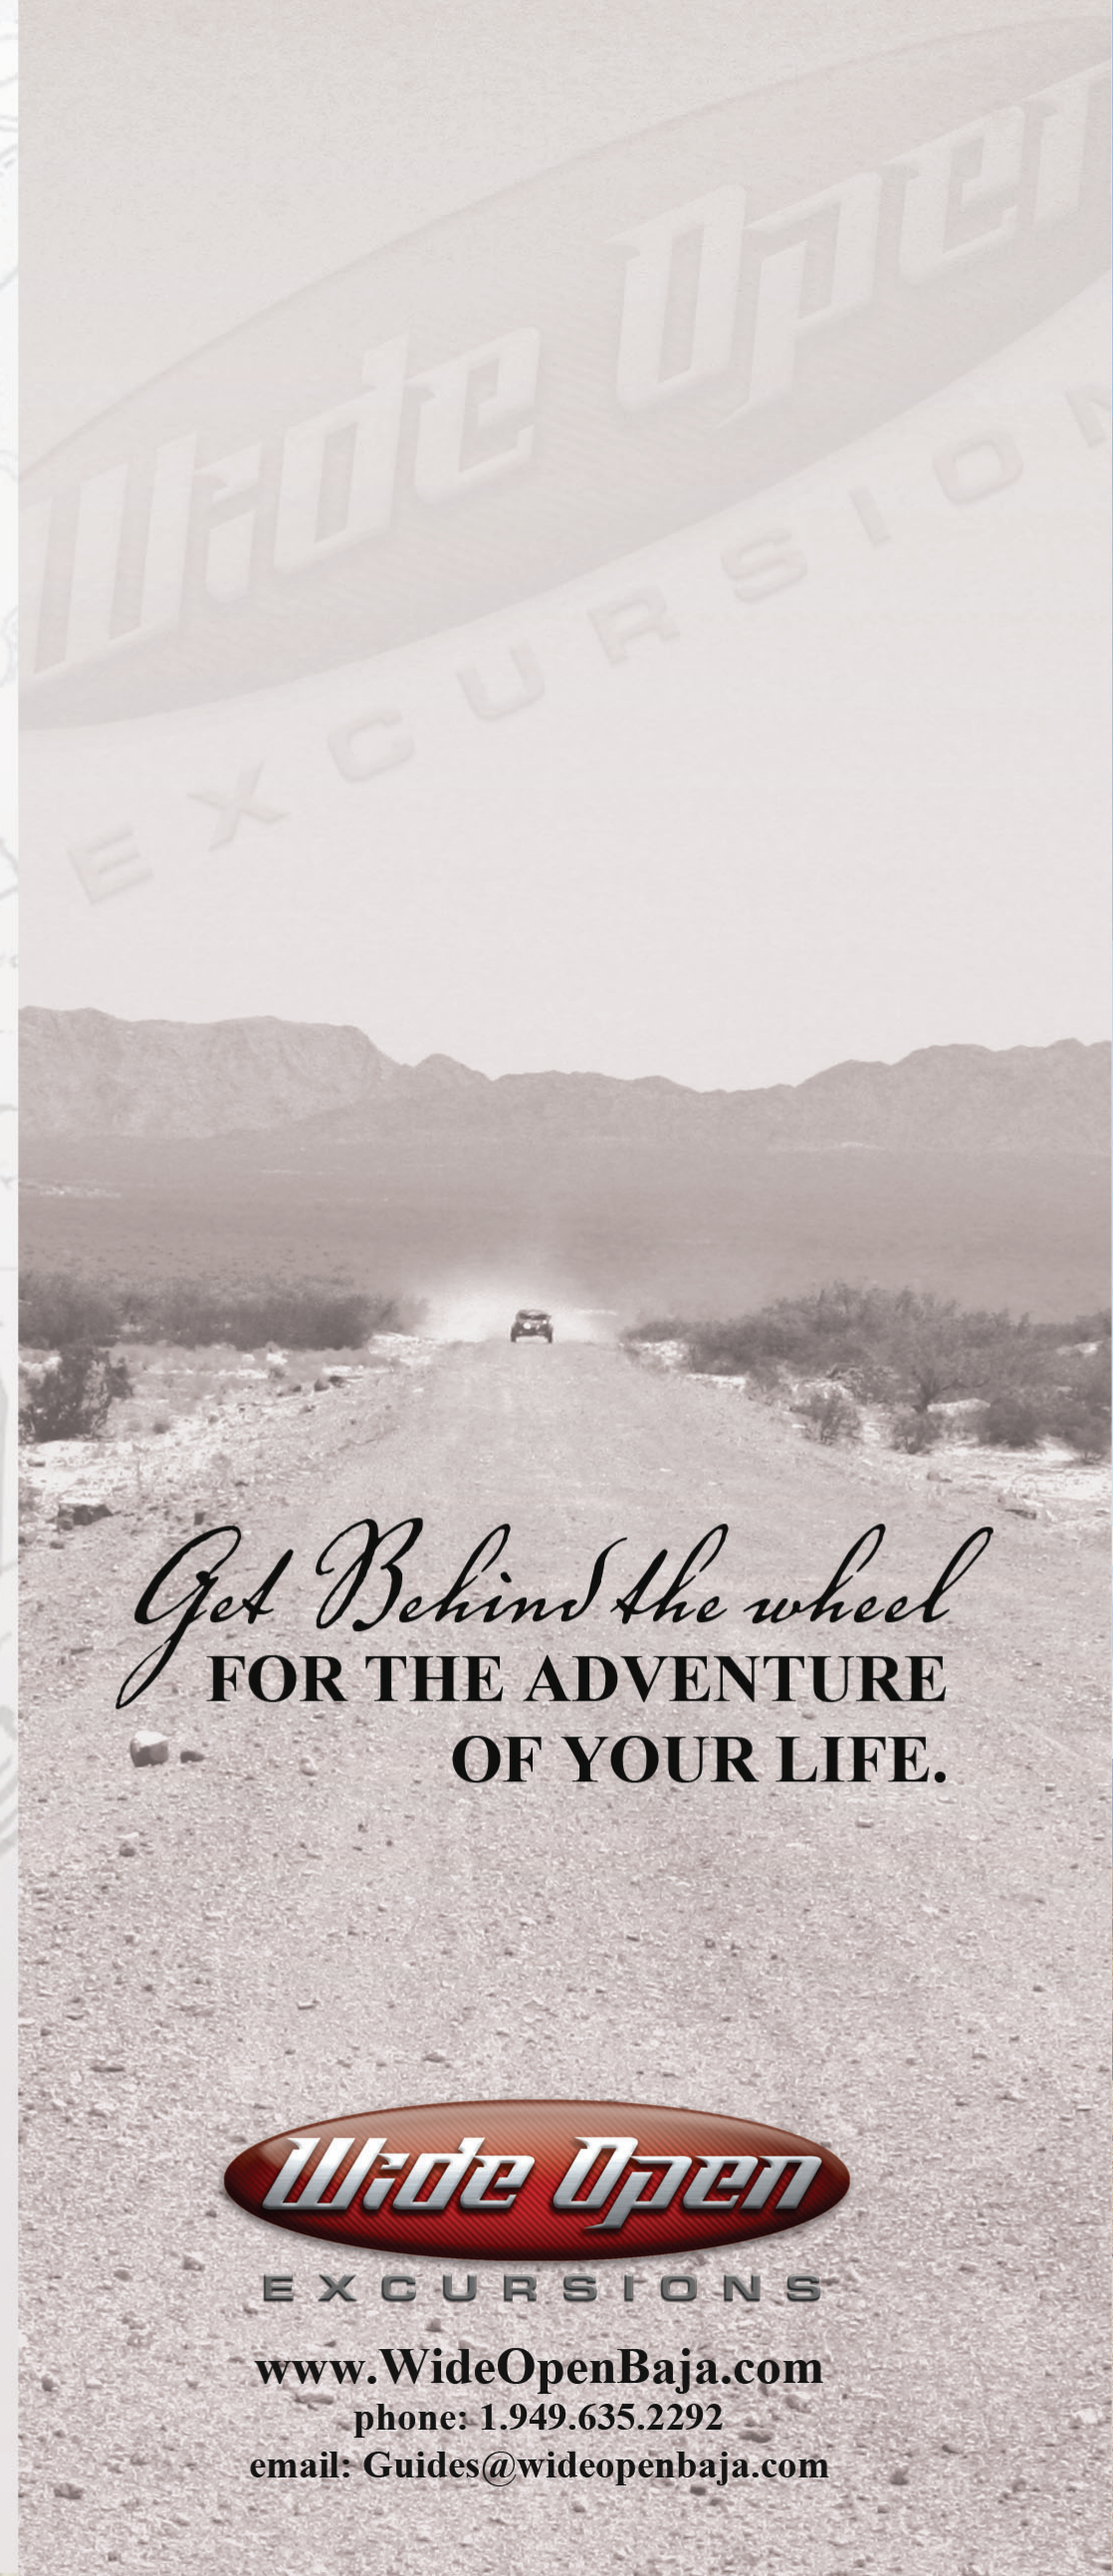

"This is so much fun, I wish I had discovered it when I was younger ... like 60!"

*Paul Newman - Actor
(long time WIDE OPEN client)*

"There isn't an adjective in the English Vocabulary that adequately describes our adventure. Viva Wide Open Baja"

R.S Martin - Granite Properties

Explore the WIDE OPEN FRONTIER

You Drive - We Guide

You Drive! Explore Mexico's safe and vast unspoiled Baja peninsula. Adventure, first-class hospitality and performance driving all in one. Baja 1000-champion guides and an experienced support team are within radio shot. From pristine beaches to lush desert canyons via remote colonial villages, our meticulously prepared cars take you there Wide Open style. Call us. The expanse of our Baja peninsula awaits.

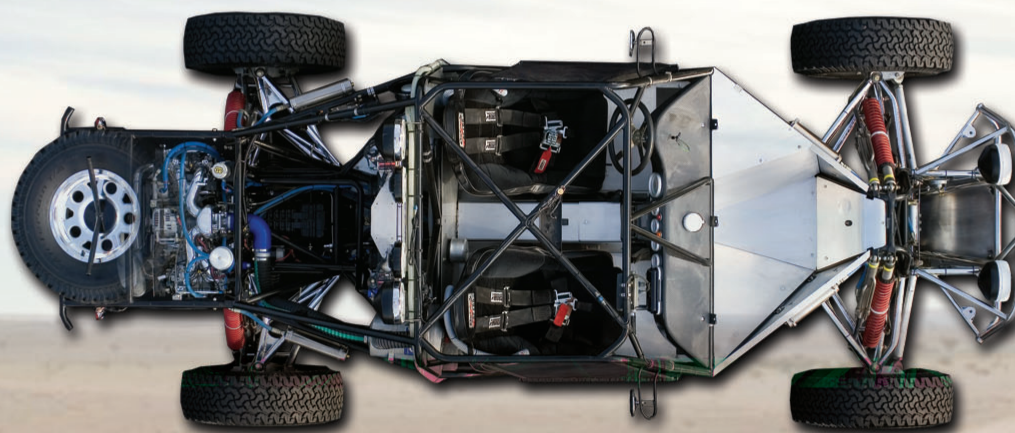

1/2 Day Experiences and
1-7 Day Tours Available

The Car

The Tecate SCORE Baja 1000, arguably the most challenging off-road race on the planet, is also WIDE OPEN's primary playground and test track. Since 2000, more than 121 Baja Challenge Cars have run this defining race and have continuously survived the brutal conditions and attrition rate to post one of the most successful records for any off-road vehicle.

Features include:

- Custom-made Chromoly Chassis
- Subaru 4-Cylinder Engine
- 4-Speed Manual Transmission
- 18" of Suspension and Eibach Springs
- Bear Suspended Racing Seats
- 5-Point Safety Harnesses
- Fresh Air Supply Directly to the Helmets
- GPS (Global Positioning System)
- BFGoodrich Tires

Arrive and Drive RACING PROGRAMS

A unique opportunity to participate in the most famous off-road races. Each year since 2000 WIDE OPEN has put hundreds of first time, celebrities and pro drivers behind the wheel and into some of the most exciting and challenging events ever conceived.

Designed to make real racing more accessible to those who have a passion for desert competition but, not necessarily the time to develop a racing program from the ground up, these are turn-key solutions that include everything from high-performance equipment to detailed logistics.
